01 · THE WRONG METRIC

The 70-Call Trap

Focus on the wrong number, get the wrong result.

WRONG SCOREBOARD

70 CALLS

Rep hits 70, gets zero bookings. Padded calls. Tightened tone. Degraded listening. Buyer feels the rush.

→ BAD DAY

By the scoreboard: did the job.
By the bank account: nothing.

RIGHT SCOREBOARD

2 DEALS

Rep runs 20-40 quality calls. Listens. Adjusts. Closes hard when signal is there.

→ SPECTACULAR DAY

By the scoreboard: might look light.
By the bank account: won.

THE PRINCIPLE

You don't get paid on how many calls you did. You get paid on the deals. The 70 is guidance – rough check on whether you tried hard enough. It isn't the measurement.

COMMISSION BREATH FROM OVER-DIALLING

Chase the 70 and you rush. Rush and the buyer hears it. Sometimes fewer, better calls close more deals. Slow down on the calls that matter.

02 · THE MENTAL MODEL

The Falcon Above the Call

Watch yourself from ten metres up.

THE PICTURE

Picture a falcon perched on your shoulder. During any call, it lifts off, hovers 10 metres above the room, and watches. From that vantage, it sees the rep AND the buyer AND the conversation AND the tone in the room — all at once.

IT REPORTS BACK IN REAL TIME

"You're going too fast." "Buyer disengaging." "You've got them — close now."

THE DRILL · RUN IT EVERY CALL

- ◆ Start of call: mentally place the falcon overhead.
- ◆ Every 60 seconds: check what the falcon is seeing.
- ◆ If the falcon disappears (you got absorbed) — bring it back.
- ◆ Over weeks it becomes automatic. That's when close rate lifts.

THE ATTRIBUTES · GRADE EACH /10

- ◆ **Confidence** Does the rep sound like they know what they're doing?
- ◆ **Product knowledge** Do they answer specifics without hesitation?
- ◆ **Certainty** Do they hold their position under pushback?
- ◆ **Tonality** Voice pitch, pace, energy — does it match the buyer?
- ◆ **Humour** Do they read when to be warm and when to be crisp?
- ◆ **Pacing** Do they let the buyer speak? Space for silence?
- ◆ **Listening** Do they respond to what was actually said?

HOW TO OBSERVE · SIDLE, DON'T STAND OVER

Don't stand behind them with a clipboard — that puts them off and changes their behaviour. Casually be in the room. Overhear. Note down. Feedback later, when they're not in performance mode.

THERE IS ALWAYS A PATTERN

Winning or losing, there's a pattern. Most reps can't see their own — they need someone else to see it. And when they DO see it, most still resist changing. Change is where the money lives.

04 · THE DAILY JUDGEMENT

Productive or Unproductive

Two categories. Binary. Applied every 6pm.

AVOID**"Good day / bad day"**

A mood judgement. Depends on how you happen to feel at 6pm. Not diagnostic. Not useful.

USE**"Productive / not"**

Binary. Objective. Did I move something forward? Yes or no. That's the measurement.

PRODUCTIVE DOESN'T REQUIRE A DEAL

- ◆ Learned something valuable → productive
- ◆ Identified a specific weakness in your pitch → productive
- ◆ Had two conversations that will convert next week → productive
- ◆ Booked no meetings but stacked one new observation → productive

STACKING · HOW CAREERS ACTUALLY COMPOUND

One thing per productive day. New objection response. New tonal move. New pattern noticed. Two thousand of these across a career = the entire difference between average and great.

"Like termites. Nibble every day. Eventually the house comes down."

05 · THE MACRO REFRAME

Start at the End

What do you want to OWN?

THE DEADLINE · DO THE MATH

24 years old + retirement at 60 = 36 working years. Feels long from inside the moment. Ask any 44-year-old what happened to the last 20 years — "they went past." You have the same time-perception ahead of you.

THE QUESTION · START AT THE END

What do you want to OWN?

Not "a career." Not "success." Not "a good life." What do you want to OWN? What car? What house? What lifestyle? What options? Get specific.

→ **Then work backwards to what you do TOMORROW to be on track for it.**

THE VISION BOARD · NOT MAGIC. BEHAVIOUR REORGANISATION.

Manifestation isn't magic — it's you picturing the outcome so consistently that your daily habits reorganise around producing it. The board doesn't cause the outcome. The board causes the daily behaviour. The daily behaviour causes the outcome.

CORIE'S 8-YEAR-OLD BOARD

Boat · 3 kids · house he now lives in · friendships around a dinner table. All arrived.

THE MEASUREMENT

- ◆ 2 deals a day = the goal. 70 calls = the guidance.
- ◆ Rushing the calls produces commission breath. Slow down.
- ◆ Fewer, better calls close more deals than lots of rushed ones.

THE FALCON

- ◆ Send it up on every call. Check it every 60 seconds.
- ◆ Watches you AND the buyer AND the dynamic between you.
- ◆ Match the energy — loud for some, classical for others.

THE DAY

- ◆ Productive or unproductive. Two categories only.
- ◆ Productive = moved something forward, even if no deal.
- ◆ Stack one new thing per productive day. Termites. Nibble.

THE HORIZON

- ◆ 36 years goes past. Start at the end. What to OWN?
- ◆ Vision board with specific images. Look at it daily.
- ◆ Front-run your growth — start the behaviour before the title.
